

Vendor and Concession Carts

Design Intent Statement

Old Town Square is a **pedestrian plaza** and the crown jewel of Fort Collins' public gathering places. The plaza was intentionally designed in a **human and pedestrian scale** for the walkable enjoyment of guests and visitors seeking a shopping, dining, entertainment, and urban relaxation experience. The automobile (cars, trucks, vans and similar motorized vehicles) and its numerous accessories such as utility trailers, flat bed trailers, travel trailers are not intended for use in Old Town Square due to the design intent and the limited physical space for vehicle maneuvering.

Vendor and concession carts are acceptable for use in Old Town Square only when they are of a **pedestrian scale** that is compatible with the Old Town Square design intent. Please refer to the Dimensional Guidelines. Below are some representative examples of allowed (left) vendor and concession options and non-allowed (right) vendor and concession options.
